We dare with everything in Barcelona's' most folk neighbourhood, where chic&basic's latest idea was born. Welcome to chic&basic Ramblas.

General Description:

chic&basic ramblas takes you back to the '60s

You'll love the recently opened chic&basic Ramblas hotel. It's a lighthearted nod to the '60s and '70s. A unique hotel that aims to surprise. A place for fun and a good laugh, which we would like to share with you.

A building inspired by the most libertine period of the last decades, the "sixties".

We rescued a cultural phenomenon where playfulness was tightly bound to the creative. The hotel's six floors have become an exhibition where the doors frame images and portraits taken by legendary "Gauche Divine" photographers from Barcelona. A green SEAT 600 in the lobby, impressive large-scale photographs on the hotel room doors, color, color, and more color! The hotel is bathed in color with the exception of the reading room, completely white with just a splash of brightness from the checkered sofa.

97 rooms, a restaurant, a bar and our usual space the "be yourself" and most importantly, looking forward to a good time with us.
